

**Interior Linear Fluorescent Custom Lighting (Continued)**

The wattage table on page 6 will give you the wattage to use for your existing fixture based on type of fixture. The new wattage will be based on what is on the DLC certificate. DLC specifications over rules manufacturers spec sheets. Only LED tubes/fixtures are eligible for incentives. Payback period MUST be between 1 and 8 years to be eligible for an incentive.

**If fixtures/tubes are Energy Star or DLC certified incentive will be \$0.08 per kWh saved, otherwise incentive will be \$0.05 per kWh.**
