

Date: July 21, 2026

Addendum #: 2

Project Name: 2026 Battery Energy Storage System

Bid Due Date: Thursday, August 6, 2026, at 2:00 PM Eastern

We wanted to make you aware of an issue with the RFP addendum posting. Due to a technical glitch, the website was unable to accommodate all the documents included with the addendum. We have since been able to correct this on the website and the files are now posted. However, we wanted to attach the documents via this email to ensure your access to them. The map referenced in the addendum remains available on the addendum page of the website.

To ensure all bidders have adequate time to review the additional information, the proposal due date has been extended by two weeks. The original due date of **July 23, 2026**, has been revised to **August 6, 2026**.

We apologize for any inconvenience this may cause and appreciate your understanding. If you have any questions regarding the attached documents or the addendum, please do not hesitate to contact us.

Thank you for your continued interest in our Battery Energy Storage System project.
